

#EMERGINGPROUD

#Emerging Proud Day plans, 12th May 2020

Inner Peace and Unity brings Outer Peace and Unity

Concept:

This year's meeting of the Emerging Proud Community explores the connection between inner and outer peace as well as the relation between unity on an individual and systemic level. We believe the future is all about co-creation and collaboration, and so we're aiming to initiate some of this action for this year's International #Emerging Proud day.

Reason:

The aim is for the #Emerging Proud community to become part of the global movement for Peace, which culminates on Global World Peace Day – 21st Sept 2020

Who are we collaborating with?

Co-Creating Europe is a growing network of individuals, initiatives and organizations from 22 European nations.

Together with their partners, Unity Earth, The Hague Center for Global Governance and One Humanity Center, they envision this movement to grow into one of the largest, diverse physical and digital collective movements for peace in human history.

How can we take part?

The #Emerging Proud community (You!) are invited to produce your own representation of what this year's concept means to you, whether it's depicted through art, poetry, music or an activity. There will be an emphasis on compassion and kindness, and how when we are able to treat ourselves with more compassion and self-love, that is what we emit outwards.

Anyone willing to participate will be invited to share your creations and ideas via the #Emerging Proud blog and on social media during #EP day on 12th May, which will help to raise awareness ready for the activities we will be part of in Sept.

Groups of Proud Emergees making the effort to take part on 12th May will also be invited to be part of the **Caravan of Unity** tour in Sept, in different geographical locations co-ordinated by Julian Baller of Co-Creating Europe.

What is the Caravan of Unity?

The Caravan of Unity is a extraordinary event series exploring the many dimensions of Peace and Kindness through Spirit, Dialogue, Art and Action across the USA and many European Countries.

We see all European citizens, present and future, as a community of travellers on a journey toward a more peaceful, kind, socially inclusive and sustainable Europe. In solidarity with the rest of the world, our vision is based on the realization of the prior unity of all beings.

What travels in our Caravan is the energy and spirit of unity and peace. It is expressed in its many dimensions and infinite potential by the events and actions of our Europe-wide network of co-creators through the first three weeks of September — leading up to the global celebration of The International World Day of Peace on the 21st of September 2020.

Place: Virtual and multiple global locations

Excited to take part? Here's what to do next;

Please contact me on this email to indicate your interest to be involved and where you are located geographically. I'll then liaise with you about our plans and how your ideas and activities may be included, both on #Emerging Proud day, and in the Caravan of Unity tour happening in Sept.

Somewhere inside all of us is the power to change the world, Roald Dahl
